

Universidade Federal de Santa Catarina
Centro Tecnológico
Departamento de Engenharia Química e
Engenharia de Alimentos

Programa de Pós-Graduação em Engenharia Química

PLANO DE ENSINO TRIMESTRE 2023.2

I. COURSE IDENTIFICATION

CODE	Dicipline Name	Credits	Period
ENQ3253000	Biological Waste Treatment	45	Tuesday 8:20 a 11:50

II. Lecturer TEACHER

Hugo Moreira Soares

III. TUTOR

N/A

IV. PRESENCE IN SYNCHRONOUS ACTIVITIES

Presential

V. COURSE AND TARGET AUDIENCE

Master and Doctorate in Chemical Engineering

VI. MENU

Fundamental concepts on microbiology, biochemistry and thermodynamics. Aerobic and anaerobic treatment systems. Nutrients removal. Landfilling, composting and leaching. Upstream and downstream processes.

VII. OBJECTIVES

Establishment of suitable path to treat solid and liquid wastes.

VIII. PROGRAM CONTENT

Waste characterization, microbiology, biochemistry and thermodynamics; Aerobic and anaerobic treatment; Nutrients removal; Solid waste treatment.

IX. TEACHING METHODOLOGY

The classes will all be taught in classroom lessons and some synchronously activities (via Moodle, in an exclusive environment), using slide exhibition materials and various video materials available on the internet.

All course material, including class presentation slides, class recordings, programmed exercises with their respective templates will be made available in the Moodle environment.

X. EVALUATION METODOLOGY

The evaluation will be by 2 exams and 1 presentation at the end of the course

XI. SCHEDULE

30/05/2023 Class 1 Introduction

06/06/2023 Class 2 Fundamental concepts on microbiology, biochemistry and thermodynamics 1

13/06/2023 Class 3 Fundamental concepts on microbiology, biochemistry and thermodynamics 2

20/06/2023 Class 4 Aerobic Treatment Process

27/06/2023 Class 5 Anaerobic Treatment Process

04/07/2023 Class 6 EVALUATION ACTIVITY 1

01/08/2023 Class 7 Nutrients removal

08/08/2023 Class 8 Solid waste treatment

15/08/2023 Class 9 EVALUATION ACTIVITY 2

22/08/2023 Class 10 SEMINAR - Advanced Treatment Systems 1

29/08/2023 Class 11 SEMINAR - Advanced Treatment Systems 2

05/09/2023 Class 12 REC
